# Product Catalog

Smart glass switches — engineered
for modern living and crafted
to match any interior.

Colors | Finishes | All Collection | Full Customisation

COMPANY OVERVIEW

# Who we are

**SPX** is a specialist manufacturer of smart switches. We design and build lighting controls that combine reliable smart-home technology with finishes refined enough to sit at the centre of any wall.Every switch pairs a tempered-glass surface with capacitive touch control, app and voice integration, and a build quality suited to residential and hospitality projects alike. From a single room to a full development, we supply switches that look intentional and work flawlessly.

*One platform — many looks.*

THE TECHNOLOGY

# What makes them smart

### App & cloud control

Manage every switch from one mobile app, on-site or remotely.

### Voice assistants

Works with the major voice ecosystems for hands-free control.

### Capacitive glass touch

A responsive tempered-glass surface with soft LED indicators.

### Safe by design

Fire-retardant housing, overload protection and low standby draw.

### Scenes & automation

Group lights, set schedules and trigger scenes in a tap.

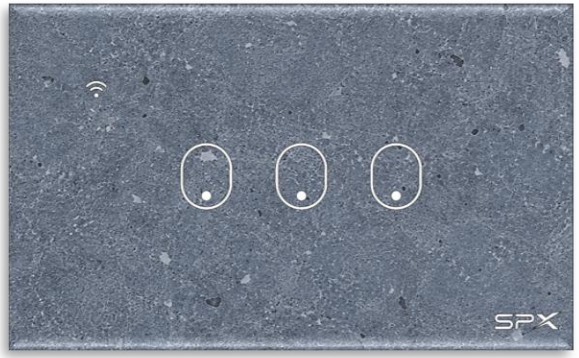
PRODUCT RANGE

# Shapes, types & configurations

A modular family in a shared design language — mix gang counts and functions across a project while keeping one consistent look.

**1-Gang**
Single circuit



**3-Gang**
Three circuits

**2-Gang**
Two circuits

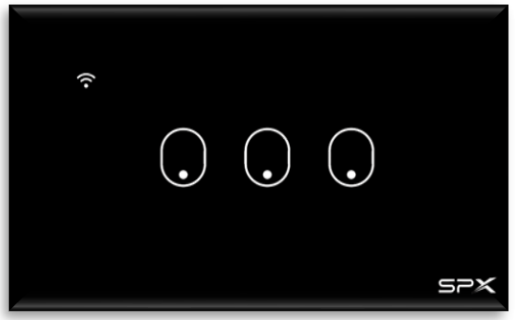
**Dimmer**
Smooth brightness

01

CONCEPT ONE

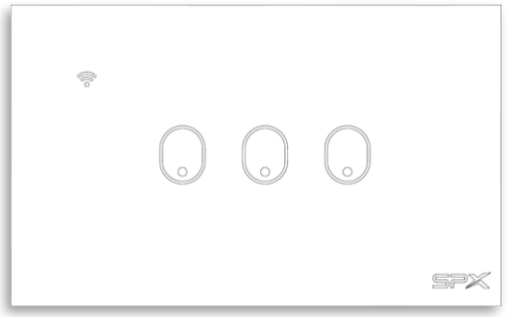
# Solid colors

A clean, single-color glass face. Three signature tones are shown here — and the same panel can be produced in any color you choose.



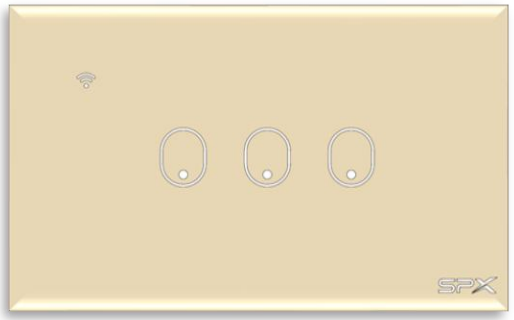
**Matte Black**

*Deep, glare-free graphite*



**Pearl White**

*Soft warm-neutral white*



**Champagne Gold**

*Brushed metallic warmth*

### Any color you like

Send a color code and we match it on glass — the next page shows how.

01

CONCEPT ONE

# Solid colors

## Matte Black

A refined matte finish that brings depth, elegance, and a timeless character to any modern space.

01

CONCEPT ONE

# Solid colors

## Pearl White

A soft pearl finish that brings warmth, elegance, and a subtle sense of luxury to modern interiors.

01

CONCEPT ONE

# Solid colors

## Champagne Gold

A sophisticated champagne finish that captures light beautifully, creating a warm and luxurious presence.

CONCEPT ONE · CUSTOMISATION

# Any color, any code

The three tones on the previous page are only a starting point. Give us a color reference and we produce the exact match on glass.

- **RAL** — Classic & Design ranges
- **Pantone** — Coated & uncoated
- **NCS** — Natural Colour System
- **HEX / RGB** — Digital brand colours

*Illustrative swatches — actual glass color is matched to your reference.*

*Minimum order quantities apply to fully custom colors — ask us for current thresholds.*

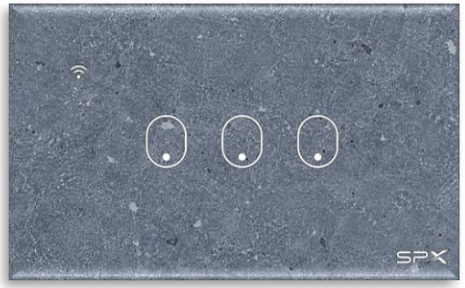
02

CONCEPT TWO

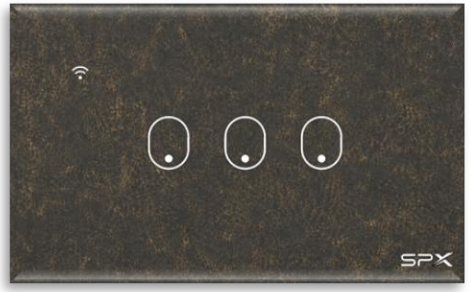
# Material finishes

Every switch stays a single sheet of tempered glass — we change the printing beneath it. Stone, marble and other natural textures, rendered on a smooth, wipe-clean surface.

Galaxy Marble



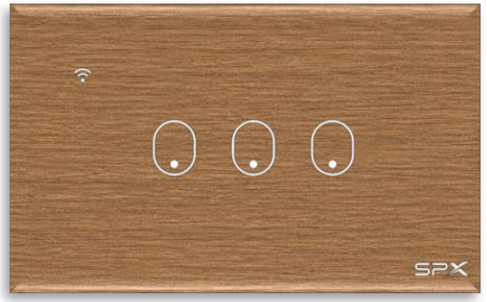
Natural Stone



Travertine

Stone

Black Marquina Marble



Wood

### Any texture you like

Send a texture photo and we match it on glass — the next page shows how.

**Bespoke textures:** concrete, brushed metal, wood grain, terrazzo or your own artwork — printed to order.

02

CONCEPT TWO

# Material finishes

## Galaxy Marble

A sophisticated marble finish with rich natural veining, designed to elevate modern spaces with subtle luxury.

02

CONCEPT TWO

# Material finishes

## Natural Stone

Inspired by the raw beauty of natural stone, each finish adds a unique character and refined elegance to any space.

02

CONCEPT TWO

# Material finishes

## Travertine

A distinctive travertine finish, blending organic texture and subtle tones to create a sophisticated and luxurious look.

02

CONCEPT TWO

# Material finishes

## Wood

A deep, elegant wood finish that brings warmth, luxury, and timeless sophistication to any space.

02

CONCEPT TWO

# Material finishes

## Stone

Soft grey stone with subtle natural veining and a refined, timeless finish.

02

CONCEPT TWO

# Material finishes

## Black Marquina Marble

Where timeless marble elegance meets smart technology

CONCEPT ONE · CUSTOMISATION

# Any texture

The three finishes on the previous page are only a starting point. Give us a texture reference and we produce the exact match on glass.

- **Natural Materials** — Realistic textures & depth
- **Custom Matching** — Exact match to your reference
- **Any Pattern** — Stone, wood, metal, concrete & more
- **Bespoke Finishes** — Tailored to your unique vision

*"Material finishes are illustrative —final textures and patterns are matched to your selected reference".*

*Minimum order quantities apply to fully custom colors — ask us for current thresholds.*

# 03

WORKING TOGETHER

# From concept to your walls

### 1 · Choose the base

Pick gang counts and functions for each room.

### 2 · Color or finish

Select a solid colour, a code, or a material finish.

### 3 · Share your reference

Send colour codes or artwork; we prepare a proof.

### 4 · We produce & ship

Approved units are manufactured and delivered.

*Samples available on request. Lead times depend on colour, finish and quantity — we'll confirm at quotation.*

LET’S BUILD YOUR RANGE

# Bring your interior to life.

Tell us the look you’re after and the rooms you’re fitting — we’ll recommend the range and prepare samples.
